Complete the following formulas to find the perimeter and area of the plane-shapes on this and the next page.

**RECTANGLE**
- \( P = a + b + a + b = 2a + 2b \)
- \( A = a \times b \)

**PARALLELOGRAM**
- \( P = a + h + b + h = 2a + 2h \)
- \( A = a \times h \)

**TRIANGLE**
- \( P = a + h + c \)
- \( A = \frac{1}{2} a \times h \)

**CIRCLE**
- \( P = 2 \pi r \)
- \( A = \pi r^2 \)

1. [Diagram of a rectangle with sides 11 and 14]
- \( P = 2 \times 11 + 2 \times 14 = 50 \)
- \( A = 11 \times 14 = 154 \)

2. [Diagram of a composite shape]
- \( P = 11 + 14 + 11 + 14 + 11 + 11 = 62 \)
- \( A = \frac{1}{2} \times 11 \times 14 + 11 \times 14 = 231 + 154 = 385 \)
3. 

\[ P = \quad A = \quad \]

4. 

\[ P = \quad A = \quad \]

5. 

\[ P = \quad A = \quad \]

6. 

\[ P = \quad A = \quad \]
